THE PLAN

Borivali Design Fair (BDF), the flagship festival of Aditya Group of Institutions, is a spectacular celebration of creativity in its most expressive and immersive form. Alive with colours, textures, rhythms, and narratives, BDF unfolds as a vibrant cultural landscape where design, performance, and youthful energy come together in abundance.

It is a space where traditions find contemporary voices, ideas are celebrated without restraint, and the campus transforms into a dynamic gathering of students, artists, performers, and the larger community—creating an experience that is bold, inclusive, and unforgettable.
