OUR VISION

The primary objective of the school is to create 'Great Practices' that achieve excellence in architectural design, which not only needs the skilful creation of architectural forms and pleasing aesthetics but also take inspirations from an in depth bank of technical knowledge and practical knowhow. Our vision is to achieve a sought after partnership among the scientific and business communities by employing leading edge of technology into our design thinking. Thereby we intend to produce competent graduates, who enter their careers in different sectors and contribute to the industry. Our pedagogic intent revolves around 'problem-solving' approach, where technical and theoretical knowledge is well integrated. Our objectives are also evident in our teaching methods which encourage the 'out of the box' thinking and enable learning utilizing innovative methods and experimentation. Due to this, Aditya College of Architecture has set out to become a landmark in architectural education.

The institute's uniqueness also lies in its location in the city of Mumbai, coupled with the state of the art infrastructure and impeccably talented and experienced people gathered here. All of them nurture a different vision about the architectural education, making this the strength of the institute since its inception, and one that will only get stronger and more enriched with time. We mentor our students to imbibe our values and insights into the state of the art facility that nourish and amplify the students' talent to mould them into the masters of tomorrow. Every incoming candidate is encouraged to be prepared to take risks if need be, to achieve success and gain fruitful returns with our strong support. Our students are encouraged to participate in various seminars, workshops, events and also organise competitions at international level throughout the academic year to facilitate discussion on various architectural topics among student communities globally. The School also demonstrates its commitment in bridging academic excellence and professional development through individual mentoring programs and active engagement through professional in the field of architecture. This we believe will prove to be indispensable when the students venture out into the industry and so will be prepared to deal with it and become successful.

OUR PILLARS

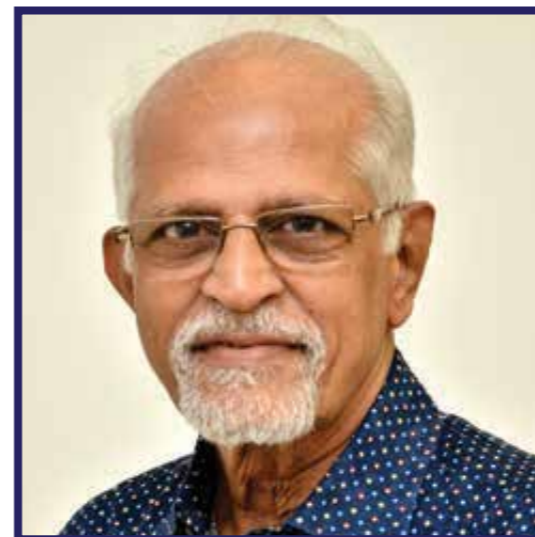

SHRI. HARISHCHANDRA MISHRA
FOUNDER TRUSTEE

ASHISH MISHRA
TRUSTEE

TRUSTEE'S MESSAGE

“Hope is the pillar that holds the world”
Shree Ameya Public Charitable Trust has been formed with a mission of providing services towards nation building. What better source could there be for achieving this vision than thinking about and investing in education. Archimedes said, “Give me a place to stand & I will move the earth.”
Aditya College of Architecture (ACA) believes in growth of individuals & the community, with reason & passion. We believe in imparting architectural education not for years, but for life.
There are only two ways to live. One is as though nothing is a miracle, the other is as if everything is. ACA stands as a quality education & research institute for Mumbai Suburbia. The incredible infrastructure, a focused faculty group with curious student fraternity make ACA a force to reckon with. Explore this new and upcoming hub of holistic learning....

AR. GURUNATH DALVI
Convener of 'ARGHYA' - BDF

MENTOR'S MESSAGE

Aditya Group of Institutions known for its innovative thinking in the field of education had earned its unflinching place in the mind of public. Being associated with one of the Institutions as its mentor, I got many opportunities to make staff and student think out of box and do something new, which others have not thought of.

International design competition of students of architecture, which is being conducted since my association with the college of Architecture and the “Arghya” Borivali Design Fair, being conducted for the first time in Borivali under my convener ship, is the outcome of such innovative thinking of Staff-students and firm support of management under the unique leadership of visionary Shri Harishchandra Mishra, the founder Trustee.

It is said that “man proposes & God disposes”. However the Aditya Group of Institutions with collective efforts of all, has proved this saying false even under current adverse situation, and managed to come with flying colours to present before you ‘Arghya’ the Borivali Design Fair for the first time in Borivali.

I wish all of you will enjoy this 3 days fair by heart and cherish its memories in many years ahead. Wishing all of you A very HAPPY NEW YEAR 2017

AR. APARNA SURVE
PRINCIPAL

PRINCIPAL'S MESSAGE

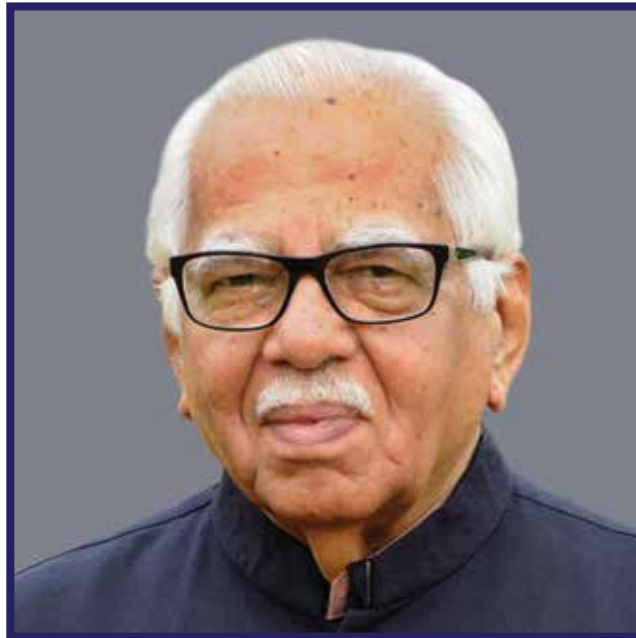

Due to guidance of inspiration our founder trustee Shri Harishchandra Mishra ji, Shri Gurunath Dalvi Sir we have taken a step ahead in launching ‘Arghya – The Borivali Design Fair’.

‘Arghya’ – meaning offering. Our offering to the community around us has been our endeared objective and by all means we were determined to take the first step this year. In past few months we have taken huge efforts in inviting eminent Architects, Interior designers, artists, dancers, singers and citizens by providing them a platform to showcase their talents in Arghya - the Borivali Design Fair.

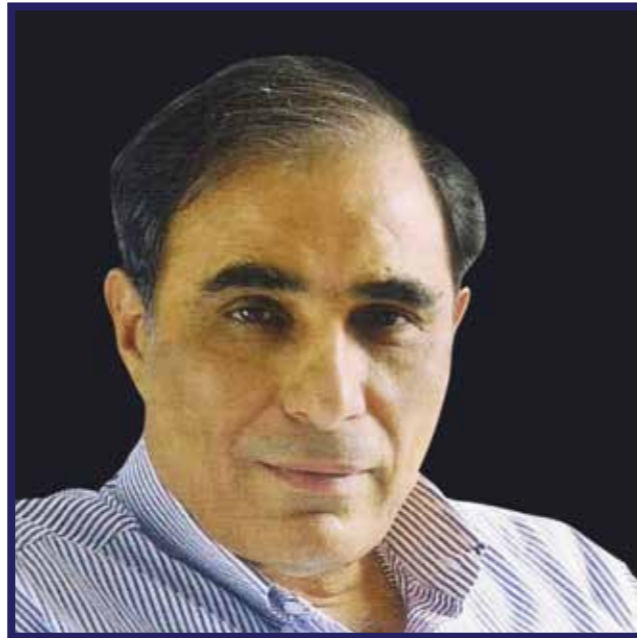

‘Arghya’ has been envisaged as an event of joy, fun and frolic, showcasing various building materials and live workshops, competitions and demonstrations of various arts and crafts. The entire design fair is being supported by corporates, industry partners, well-wishers to make it a grand success.

In putting up the event our faculty has put in an extreme hard work and shown extraordinary commitment in completing various difficult tasks. Our students have come together, lived moments of spirit and have made their own organisational plans to make the event a great success. I truly feel proud of them. Finally, what is the measure of success and failure is a matter of a ‘Viewpoint’ and a subjective judgement. What matters here the most is how we as a team stood by the cause, purpose.

OUR CHIEF GUEST

SHRI RAM NAIK
HON'BLE GOVERNER
UTTER PRADESH.

**PADMABHUSHAN
AR HAFEEZ**
CONTRACTOR

OUR WELL WISHER

SUMITRA MAHAJAN
HON'BLE LOK SABHA SPEAKER

I am very happy to learn that the Aditya Group of Institutions, catering to the needs in Management Studies and Research, Architecture and Design Studies, are celebrating their Annual Fest, 'Udaan' with an Exhibition, and organising ' ARGHYA-The Borivali Design Fair' from 16 to 18 December 2016. Architecture as a profession is growing in its outreach and expanding to new emerging areas. In the architectural profession, technical and enviromental knowledge, construction management and an understanding of business are as important as design. professionally an architect's decisions have huge implications on public safety. The "Borivali Design Fair" will help in supporting and promoting Architects, Interior Designers and artists to showcase their talent.

I wish ' ARGHYA- The Borivali Design Fair' all success.

**NOW KHADI WINS THE HEARTS
OF FASHION CONSCIOUS YOUTH**

Charkha and Khadi are the symbol of ancient philosophy of the Orient-Simple Living and High Thinking. They continue over the ages, to provide some honourable living means to the unemployed and the employed in the bargain provide the most comfortable, eco-friendly fabric to cloth the wise populace.

It is no more the coarse, plain looking cloth for the poor, but emerged as the most sought after, elegant, cosy for the same time cool, fabric with purity and tranquility woven in to it.
